Summary of Contract Purpose:
The overall objective of this study is to conduct a research and develop a database of ESOs across Africa. The research will identify ESOs and their concrete needs, in particular institutional capacity gaps of ESOs at different levels of the ecosystem, inter linkage challenges as well as regulatory bottlenecks faced by the different actors of the entrepreneurial ecosystem (incubators, entrepreneurs, accelerators, etc.). Those insights will be supporting the implementation of the JfYA strategy, specifically, the Lab. Since the aim of The Lab is to promote business development, provide both soft and business skills, mentorship, and forge trade links benefiting entrepreneurs, a view on jobs per industry would also be of an incremental value for the next steps for a virtual platform.
